**DETAILED ACTION**

This action is responsive to communications filed on 06/17/2009.

***Allowable Subject Matter***

**Claims 1-7, 9, 10, and 31-33** are allowed.

The following is an examiner's statement of reasons for allowance: the prior arts on record, alone or in combination, do not each or fairly suggest the invention as claimed in claim 1, an information processing device comprising: a status change processing section that instructs other information processing devices to change into an active status when an amount of unprocessed data exceeds a predetermined threshold value; and a registration processing section which receives and adds data into a storage in such a manner that, if the received data is data transmitted to a shared address, the data is added into the storage only when the information processing device is in the active status; and if the received data is data transmitted to a particular address, the data is added into the storage section, regardless of whether the information processing device is in the active status or not.

Further, the combinations of the limitations set forth above with all of the other limitations in claim 1 are not

obvious. In addition, Applicant's Arguments filed on 06/17/2009 are persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
